CYPRUS LIBRARY

11/11/2020

Subject: Cyprus Library and measures for handling the pandemic

The Cyprus Library is taking some extra measures in order to protect the users and the employees of the library.

Visitors must use antiseptic gel and a protective mask entering the library.

Measures

- Make an appointment before visiting the library.
- Search the online catalogue and ask your books before visiting the library by calling, sending an email or at the time visiting the library.
- The Reference Department and the reading room can be used for a short time (30 minutes) and books can be found by the employees before your visit.
- New members can be registered by completing the below papers in order to reduce the time staying in the library.

All the above can be changed following the general policy of the Government for the pandemic.

Thanks for understanding and following the measures. No action can produce the desired effect unless there is full co-operation and application by the all.
