

Dear All,

Beside its very well-known and prestigious Individual ERC grants, the European Research Council (ERC) has also a scheme called the **ERC Synergy Grant** enabling 2 to 4 Principal Investigators to tackle together ambitious research problems.

EURAXESS India together with the EU Delegation to India is organising a [webinar on ERC Synergy Grants](#) on **Wednesday 6 October from 2.30-3.30 pm IST (11-12 CET)**. For more, see <https://bit.ly/3EWDxwA>.

The scheme will be presented by the ERC Coordinator from Brussels, so it is a good occasion to learn and understand the modalities of this new scheme and the opportunities it offers to the PI in your respective countries to join forces with an PI from India.

Please pass on the invitation to your respective networks of universities and research institutes keen to engage with Indian scientists, and of course also to your network of potential interested Indian scientists.

Participation is free of charge but prior registration is required: <https://bit.ly/2WjixP8>. For agenda click [here](#).

Thank you for your support and participation.
